## Professional Summary

As a software developer with 2 years of experience specializing in frontend and mobile app development, I thrive on solving complex problems and consistently delivering flawless code within tight deadlines. My expertise in React and React Native allows me to create dynamic, user-friendly interfaces and high-quality, responsive designs that ensure smooth user experiences. My track record demonstrates a commitment to achieving demanding development objectives, showcasing versatility and proficiency across diverse projects.

## Skills

### Languages

HTML5, CSS3, JavaScript (ES6+), Typescript

### Frameworks & Libraries

React.js, TailwindCss, Next.js, and React Native

### Performance Optimization

Code splitting, lazy loading, CDN integration, Knowledge of SEO best practices

### Tools & Platforms

Webpack, Babel, npm

### API Integration

RESTful APIs, GraphQL

### Version Control

Git

### Miscellaneous

CI/CD, AWS concepts, Effective Communication, Problem-solving, Team Player

## Work Experience

2023/08 – 2024/06

Lagos, Nigeria

### Frontend Engineer | Next.js, React.js, Tailwind CSS, Redux

VoltWolf Ltd

#### Development of Sophisticated Admin Dashboard:

- Challenges: Enhancing user engagement and improving the usability of the admin interface.
- Actions: Developed a sophisticated admin dashboard leveraging Next.js, React.js, Tailwind CSS, and Redux.
- Achievements: Increased user engagement by 25%, providing a more intuitive and efficient user experience.

#### Integration of REST APIs:

- Challenges: Ensure efficient data handling and display.
- Actions: Integrated REST APIs for seamless data handling and display.
- Achievements: Enhanced performance and reliability of data interactions.

#### Version Control and Collaboration:

- Challenges: Maintain code integrity and facilitate team collaboration.

Projects

Digital Wallet

(Link here) 

Tools used: React | Tailwind CSS | Context API

Developed a secure digital wallet app independently, leveraging React with Tailwind CSS and Context API for the front end. Utilized expertise to ensure smooth transaction experiences for users.

Community Work Platform

Implemented a seamless user registration system, allowing volunteers to easily sign up for various community programs and activities.
